LETTER

Commissioner for Patents  
U.S. Patent and Trademark Office  
Washington, D.C. 20231

Sir:

This letter is filed with the above-identified Continuation Application in order to identify changes made to the application in accordance with the Pre-Grant Publication Helpful Hint printed in the Pre-OG Notices which can be found on the USPTO website at <http://www.uspto.gov/web/offices/pac/dapp/opla/preognotice/pgpubhint3.htm>. Favorable consideration of the application is respectfully requested in view of the following comments.

REMARKS

As the above-identified Continuation Application will be published pursuant to 35 U.S.C. §122(b), it is being filed under 37 C.F.R. §1.53(b) with a specification (including the claims), and drawings, that the Applicant would like to have published. As such, the above-identified Continuation Application has been filed with a new specification and corrected drawings, along with a copy of the Oath or Declaration from the prior application. However, no new matter is included in the new specification or the corrected drawings.

Additionally, the new specification includes some of the amendments entered during the prosecution of the prior application(s) (the claims, of course, were not amended to be identical), which include amendments submitted for clarity or contextual purposes, and a new set of claims. Specifically, the specification was amended as follows:

- On Page 1, the Attorney Docket number was removed from the upper right-hand corner.
- The paragraph starting at page 1, line 1 was replaced with the following paragraph:

This application is a continuation of United States Patent Application No. 08/752,301, filed on November 19, 1996, which is a continuation-in-part of United States Patent Application No. 08/744,109, filed on November 5, 1996.
- Page 1, line 14, “accessability” was changed to “accessibility” to correct a spelling error.
- Page 1, line 15, “World-Wide” was changed to “World Wide” to correct a spelling error.
- Page 1, line 18, “world wide web” was changed to “World Wide Web”.
- On Page 1, footer, the page number was added.
- Page 2, line 7, a space was removed after the word “name”.
- Page 3, the line numbering was changed to be consistent with rest of document.
- Page 3, line 19, a comma was removed after the word “associated” to correct a grammatical error.
- Page 5, the line numbering was changed to be consistent with the rest of document.
- Page 5, line 11, “flow chart” was changed to “flowchart” to correct a spelling error.
- Page 5, line 13, “flow chart” was changed to “flowchart” to correct a spelling error.
- Page 8, line 8, a comma was inserted after the word “connection” to correct a grammatical error.

- Page 8, line 18, "generates" was changed to "generate" to correct a grammatical error.
- Page 10, line 1, "or" was changed to "of" to correct a grammatical error.
- Page 12, the line numbering was removed for convenience.
- The reference number was removed from the upper right-hand corner and the filename was changed in the lower left-hand corner on the "Abstract of the Disclosure" page.

The format, e.g., the line numbering and margins may have changed due to the use of a different printer, as is known.

In view of the above amendments, Claims 1-4 are pending. Prompt consideration of this Continuation Application, along with the newly added claims is respectfully requested.

In view of the prosecution which was conducted in the parent application (U.S. Ser. No. 08/752,301), claims 1-4 are believed to be in condition for allowance and notice to that effect is hereby requested. If it is determined that the application is not in a condition for allowance, the Examiner is invited to initiate a telephone interview with the undersigned attorney to expedite prosecution of the present application.

Entry and consideration of the attached Information Disclosure Statement is respectfully requested.

Please note, copies of the art cited in the attached Forms 1449 are not included, as all of the art listed in the attached Forms 1449 was previously cited in related U.S. Ser. No. 08/752,301 (of which this application is a continuation). Thus, under MPEP §609 Applicants request that all the art listed in the attached Forms 1449 be considered and made of record (i.e. listed on the front page of any patent which may issue from this application).

Should the Examiner require additional copies of any or all of the art listed in the attached Forms 1449 the Examiner should contact the Applicants' undersigned attorney at the telephone number provided below.

Additionally, it has come to the attention of the undersigned that U.S. Application No. 09/570,961 filed on May 15, 2000 may have a relation to the present application.

Application No. 09/570,961 is assigned to Symbol Technologies, Inc. and the present application is owned by Symbol Technologies, Inc. via its acquisition of Telxon Corporation.

Attached, in connection with the above-identified application, is an Associate Power of Attorney requesting Daniel R. McGlynn, Corporate Counsel for Telxon Corporation, be recognized as an associate attorney in the above-identified application. Further, it is also requested that the contact information be updated to reflect the correspondence address of Mr. McGlynn and his telephone number.

The Applicants would also like to make the Examiner aware that a Petition and Fee for Extension of Time, i.e., a one month extension of time, was filed in the parent case on December 10, 2001.

If there are any additional fees resulting from this communication, please charge same to our Deposit Account No. 18-0988, our Attorney Docket No. T075A.

Respectfully submitted,
